

SUBJECT: #2020-09 COVID-19 Measures: Management of TTLABS Activities

This notice is addressed to all TTLABS Accredited Organizations and Stakeholders:

The Prime Minister of the Government of the Republic of Trinidad and Tobago, Dr The Honourable Keith Rowley, announced via press conference held 2020-Aug-29 that for the next fourteen (14) days, in order to restrict the movement of the population, the Public Service will be on “**essential services only**”. As such, TTBS has issued an edict for remote work arrangements for all non-essential services during the period 2020-Aug-31 to 2020-Sep-11. Given this development, TTLABS would like to communicate with our current accredited customers and other stakeholders, the strategies and actions being taken at this time.

TTLABS continues the measures implemented thus far to ensure compliance with the regulations issued by the Government of the Republic of Trinidad and Tobago and to accommodate our stakeholders during this period as stated in **2020-05 Notice COVID-19 Measures: Management of TTLABS Activities** dated 2020-Apr-17.

As the situation evolves, TTLABS remains committed to providing the best service possible to our customers and stakeholders. Please do not hesitate to reach out to TTLABS staff as indicated below. We appreciate your continued support and business.

TTLABS Staff	Position	Contact
Karlene Lewis	Manager	Karlene.lewis@tbs.org.tt
