STANDARDS NUMBER	STANDARDS TITLE	SCOPE	COMMENT
TTS/ISO 14024:2002	Environmental Labels and Declarations - Type I Environmental Labelling - Principles and Procedures	Establishes the principles and procedures for developing Type I environmental labelling programmes, including the selection of product categories, product function characteristics; and for assessing and demonstrating compliance. This International Standard also establishes the certification procedures for awarding the label.	The base document, ISO 14024:1999, was withdrawn and replaced by ISO 14024:2018.
TTS/ISO 14021:2002	Environmental Labels and Declarations - Self-Declared Environmental Claims (Type II Environmental Labelling)	Specifies requirements for self-declared environmental claims, including statements, symbols and graphics, regarding products. It further describes selected terms commonly used in environmental claims and gives qualifications for their use. Describes a general evaluation and verification methodology for self-declared environmental claims and specific	The base document, ISO 14021:1999, was withdrawn and replaced by ISO 14021:2016.

		evaluation and verification methods for selected claims in this standard. This International Standard does not preclude, override, or in any way change, legally required environmental information, claims or labelling, or any other applicable legal requirements.	
TTS/ISO 14020:2002	Environmental Labels and Declarations - General Principles	Establishes guiding principles for the development and use of environmental labels and declarations. It is intended that other applicable standards in the ISO 14020 series be used in conjunction with this International Standard. It is not intended for use as a specification for certification and registration purposes. NOTE: Other International Standards in the series are intended to be consistent with the principles set forth in this International Standard. Other standards currently in the ISO 14020 series are ISO 14021, ISO 14024 and ISO/TR 14025.	The base document, ISO 14020:1998, was withdrawn and replaced by ISO 14020:2000.

STANDARDS NUMBER	STANDARDS TITLE	SCOPE	COMMENT
TTS/ISO 14063:2007	Environmental Management - Environmental Communication - Guidelines and Examples	Gives guidance to an organization on general principles, policy, strategy and activities relating to both internal and external environmental communication. It utilizes proven and well-established approaches for communication, adapted to the specific conditions that exist in environmental communication. It is applicable to all organizations regardless of their size, type, location, structure, activities, products and services, and whether or not they have an environmental management system in place. This standard is not intended for use as a specification standard for certification or registration purposes or for the establishment of any other environmental management system conformity requirements. It can be used in combination with any of the ISO 14000 series of standards, or on its own.	The base document, ISO 14063:2006, was withdrawn and replaced by ISO 14063:2020.
